MEETING POINT FOR THE HOSE & COUPLING COMMUNITY

The Hose + Coupling World Conference & Expo and its Chairman, Fred Schweighardt - National Projects Manager for Airgas, an Air Liquide company, looks forward to welcoming thousands of attendees to Houston, Texas, in 2018. Attendees will be invited to participate in an overview of the latest technologies, materials and systems in the field of industrial and hydraulic hoses, couplings, fittings, crimpers, machines, expansion joints and material suppliers presented by exhibitors from all over the world. This event will serve as a meeting point for the hose community, creating opportunities to network, showcase and engage while enjoying plenary lectures and presentations in a comprehensive conference program.

EXHIBIT TO THE HOSE & COUPLING MARKET

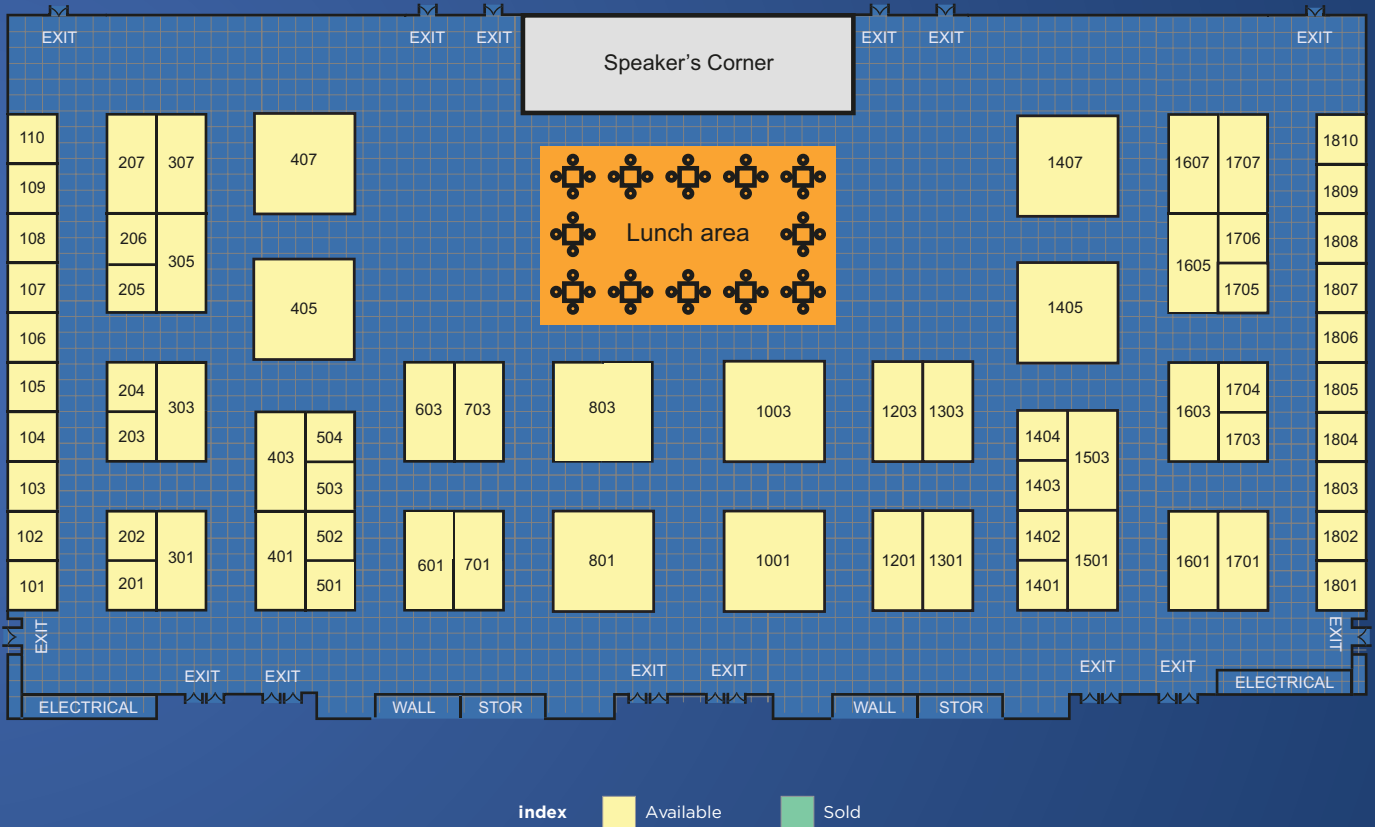

Manufacturers, suppliers and distributors will showcase their latest products and develop business relationships to grow partnerships for the years ahead. Industry leaders will be presenting their newest products and latest services. Exhibitors will be on site to answer questions, provide information and to showcase what their brands have to offer. Attendees can register to walk the expo floor (it is **free** to walk the floor).

The Hose + Coupling World Conference, in partnership with NAHAD, will bring together hose & coupling companies, EPCs and end-users to strengthen relationships, meet new customers, and exchange ideas and opinions. Delegates will have an opportunity to meet industry professionals with a high level of expertise and network in an informal and social atmosphere.

HIGH QUALITY CONFERENCE PROGRAM

These events will cover a variety of related topics that are essential to today's industrial and hydraulic markets. There will be keynote presentations on topics relevant to industries such as oil & gas, chemical, water & wastewater, agriculture and more. For attendees looking to attain professional development hours, conference delegates will be awarded certificates of completion. Workshops will cover topics such as:

- Hose Technology for Subsea Application
- Material Selection for the Oil & Gas Industry
- Hose Testing Solutions
- Coupling Selection for Chemical Applications
- Supply Chain
- Hose & Coupling Repairs Solutions
- New Technology in Hose Assemblies & Hose Systems
- Avoiding Coupling Failure

HOSE + COUPLING WORLD AMERICAS 2018

OCTOBER 16-17, 2018

George R. Brown Convention Center

Houston, an important industrial hub in the United States, is well-known for its presence in the energy, high purity, agricultural and chemical industries. It is home to many energy-related businesses, including oil and gas exploration and production companies, operators and end-users.

The city has one of the largest concentrations of industrial space in the nation and has room to meet future demand. Business accelerators such as the Houston Technology Center work to facilitate technology entrepreneurship in the area, making it an appropriate location for our upcoming event.

The George R. Brown Convention Center is situated in the heart of Houston's downtown Galleria district which boasts a state-of-the-art facility, entertainment venues, hundreds of retail shops and everything from family restaurants to gourmet feasts.
